

CADARETTA, Columbia Valley
2010 SBS

90 POINTS

“Cadaretta has adopted the Western Australia custom of using SBS on the label to indicate a Sauvignon Blanc Semillon blend. The Semillon (25%) in Cadaretta’s blend puts a glossy coating on the grassy herbal pungency of Sauvignon Blanc and adds body. Good weight and concentration comes from the ripeness of the fruit (14.1% stated alcohol). The attractive zesty character of Sauvignon Blanc is still apparent, but doesn’t scream in your face. All in all, **it’s a blend that works**, drawing on the best qualities of each varietal.”

-MICHAEL APSTEIN, SEPTEMBER 12, 2011
